Property Values Increasing for 2015

KELOWNA– Owners of more than 68,000 properties throughout the South Okanagan can expect to receive their 2015 assessment notices in the next few days.

“Property owners who feel that their property assessment does not reflect market value as of July 1, 2014 or see incorrect information on their notice should contact BC Assessment as indicated on their notice as soon as possible in January,” said Sowinski.

“If a property owner is still concerned about their assessment after speaking to one of our appraisers, they may submit a Notice of Complaint (Appeal) by February 2, for an independent review by a Property Assessment Review Panel,” added Sowinski.

The Property Assessment Review Panels, independent of BC Assessment, are appointed annually by the Ministry of Community, Sport and Cultural Development, and typically meet between February 1 and March 15 to hear formal complaints.

Facts on B.C. Property Assessments and the 2015 Assessment Roll

- Total number of properties on the 2015 roll is 1,974,120, an approximate 0.98% increase from 2014.
- Total value of real estate on the 2015 roll is \$1,206,152,088,777 (\$1.2 trillion), a 5.84% increase from 2014.
- Total amount of 'non-market change', including new construction and development: approximately \$18.69 billion, an increase of 6.54% from the 2014 roll of \$17.54 billion.
- In B.C., approx. 87.74% of all properties are classified with some residential (Class 1) component. This equates to over \$912 billion (\$912,653,565,545) of the value on the total provincial roll.
- Over 98% (99.1% in 2014) of property owners typically accept their property assessment without proceeding to a formal, independent review of their assessment.
- Assessments are the estimate of a property's market value as of July 1, 2014 and physical condition as of October 31, 2014. This common valuation date ensures there is an equitable property assessment base for property taxation.
- Changes in property assessments reflect movement in the local real estate market and can vary greatly from property to property. When estimating a property's market value, BC Assessment's professional appraisers analyze current sales in the area, as well as considering other characteristics such as size, age, quality, condition, view and location.
- Real estate sales determine a property's value which is reported annually by BC Assessment. Local governments and other taxing authorities are responsible for property taxation and, after determining their own budget needs this spring, will calculate property tax rates based on the assessment roll for their jurisdiction.
- BC Assessment's assessment roll provides the foundation for local and provincial taxing authorities to raise more than \$6.8 billion in property taxes each year. This revenue funds the many community services provided by local governments around the province, including the public school system.
- BC Assessment's website provides a listing of property assessments and sales to help property owners understand their property's market value and provide comparable sales information. Go to www.bcassessment.ca and click on the **e-valueBC** link. For 2015, a new version of e-valueBC provides improved navigation, an interactive map and inclusion of property street-front imagery.
- New for 2015, BC Assessment has updated its Customer Service Standards which include commitments to be open & transparent, fair & accurate, timely & accessible, knowledgeable & respectful, and innovative & collaborative.
